Subtract Whole Tens Using Models

Subtract and write your answer in the blank.

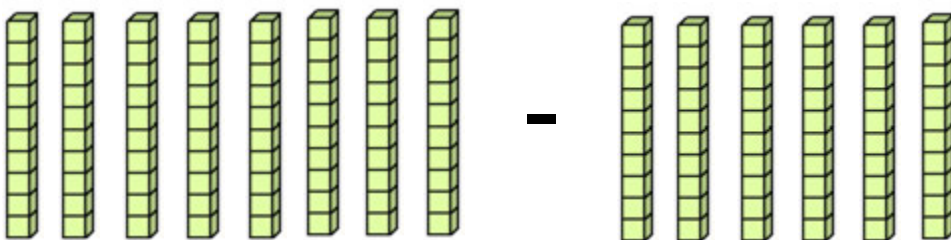

Four vertical rods, each composed of 10 small cubes, are shown on the left. A minus sign is placed to the right of these rods. To the right of the minus sign is a single vertical rod, also composed of 10 small cubes. To the right of this rod is an equals sign, followed by a large empty rectangular box for the answer.

$$40 - 10 = \square$$

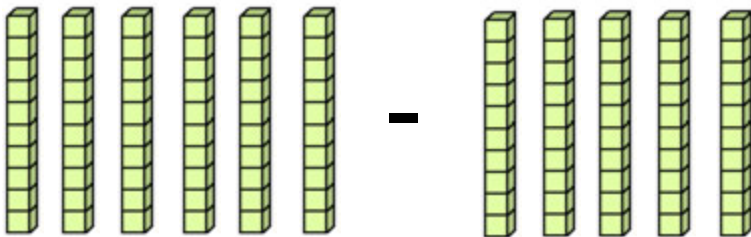

Nine vertical rods, each composed of 10 small cubes, are shown on the left. A minus sign is placed to the right of these rods. To the right of the minus sign are two vertical rods, each composed of 10 small cubes. To the right of these rods is an equals sign, followed by a large empty rectangular box for the answer.

$$90 - 20 = \square$$

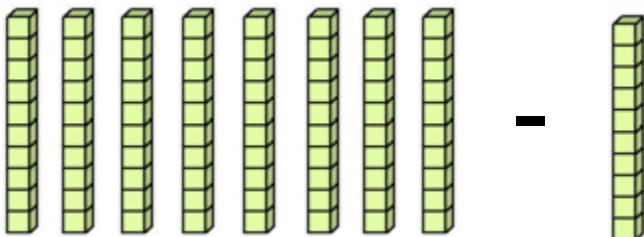

Eight vertical rods, each composed of 10 small cubes, are shown on the left. A minus sign is placed to the right of these rods. To the right of the minus sign are six vertical rods, each composed of 10 small cubes. To the right of these rods is an equals sign, followed by a large empty rectangular box for the answer.

$$80 - 60 = \square$$

Six vertical rods, each composed of 10 small cubes, are shown on the left. A minus sign is placed to the right of these rods. To the right of the minus sign are five vertical rods, each composed of 10 small cubes. To the right of these rods is an equals sign, followed by a large empty rectangular box for the answer.

$$60 - 50 = \square$$
